

CLEAN AIR

LUSH PASTURE

What makes Grassmilk so special? Just about everything.

A dairy cow's diet makes a big difference in how its milk tastes. Our Grassmilk cows are 100% grass-fed on organic pastures and dried forages, like hay. They are never fed grains like soy or corn. The result is deliciously creamy milk with a seasonal taste and higher omega-3 and CLA than conventional milk. Minimally processed and not homogenized, Grassmilk reflects where it comes from—lush pastures with clean air and abundant sunshine.

Bringing *the Good*

Organic Milk, Cream and Soy

Organic & Farmer-Owned

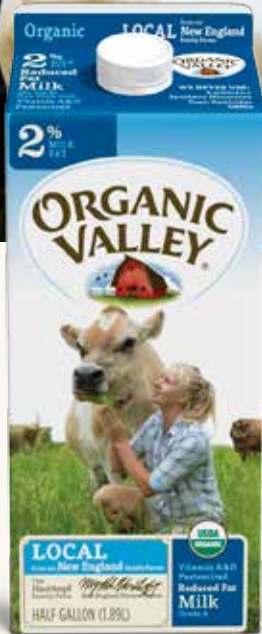

At Organic Valley, our philosophies and decisions are based on the health and well-being of people, animals and the earth. We're a mission-driven cooperative, owned by family farmers, and we've been leaders in organic agriculture from the very beginning.

#1 Always Organic Dairy Brand*
